

The Kansas City Woodturners Association announces:

Basic Spindle Turning Class

Taught by Professional Woodturner

Anthony Harris

The fundamentals skills of spindle turning are applicable to all subsequent endeavors on the lathe. No club membership is required. No lathe experience is necessary to sign up, although turners with some experience can still benefit through deeper exploration into good tool handling, making good shapes, tool modifications and efficiency. The class will supply tools to those who don't have them, but bringing your own is beneficial. Wood will be supplied.

The class is broken up into three 4-hour sessions. The sessions will run from 12:30pm until 4:30pm on Sunday 9/12, Saturday 9/18, and Sunday 9/19.

Particular topics are where and how to get wood – it doesn't all have to come from a lumber yard. We will learn a few methods for mounting work on the lathe. Shapes of and sharpening of your tools and the skills to make clean, efficient cuts on the inside and outside of spindles. We will pay particular attention to how to use a chuck and how to prepare billets for mounting. Sanding and finishing will be covered, but limited as we do not have adequate facilities for either. We will have fun, and the puns are free though not without other costs.

If you have questions about this class email treas@kcwoodturners.org The class fee is \$175.00 and is limited to eight students. The class will be held in the KC Woodturners lathe room at the clubhouse, 3189 Mercier St., KCMO. No tuition refund after the class has begun.

COVID Note: Masks will probably be required. Check our website prior to class for any relaxation of the KCMO City Mask Mandate.
