

The Kansas City Woodturners Association announces:

Bowl Turning Class

Starting September 2019

Taught by

Professional Woodturner

Anthony Harris

Learn how to make bowls on the wood lathe. No lathe experience is necessary, although turners with some experience can still benefit through deeper content into form, detailing, and efficiency. The class will supply all tools and wood necessary, but your own bowl gouge is beneficial if you have one. Club membership is NOT required.

The class will take place on three consecutive Saturday afternoons starting in September 2019: September 21st and 28th and October 5th from 12:30pm to 4:30pm. The class will be held in the KC Woodturners lathe room at the clubhouse, 3189 Mercier St., KCMO. Class tuition is \$170.00 per student for all three days.

Particular topics are where and how to get wood, how green wood must be cared for, and how to make it stop looking like a tree trunk and something that you would be willing to spin on a lathe. We will learn five methods of mounting work on the lathe. Shaping and sharpening of bowl gouges will be taught. The skills to make clean and efficient cuts on the inside and outside of the bowl will be a primary topic. We will pay particular attention to how to use a chuck and how to prepare bowl blanks and work-in-process for their use. Both turning to finished size and twice-turning will be covered as well as how to dry green-turned bowls. Sanding and finishing will be covered, but not practiced as we do not have adequate facilities for either. Puns are included.
