

The local Kansas City Woodturning Clubs are pleased to announce a live streaming demonstration by professional woodturner emeritus David Ellsworth on Monday, October 11th, 7:00pm to 9:30pm. Everybody is invited.

We will view David Ellsworth's live demonstration at the KC Woodturners Clubhouse or you can view his demo at your home. David will provide a Zoom link a week prior to his demo.

David Ellsworth will demonstrate making a medium sized hollow turning for us. He newly developed this demo for 2021 and has been practicing to make it perfect. David has been turning hollow forms since 1974. He pretty much invented the original tools and techniques for hollow turning.

David turns in his studio in Buck's County Pennsylvania. He is a founding member of the American Association of Woodturners and was its president from 1986 to 1991. He has taught hollow turning to hundreds of woodturners and is much in demand for his demonstrations and classes.

David Ellsworth's demo is not free for the clubs so we request a \$10 donation to help pay for this event.

You can pay \$10 at the door: the KC Woodturner Clubhouse, located at 3189 Mercier St., KCMO.

To use Paypal to pay for this demo, click on this link or paste this link into your browser:
