## Show and Tell

**Alex Garcia's** natural edge bowl showed his skill in turning and in use of a local wood, Osage Orange. Nice job, Alex.

**Sandy Moreno** brought in a Madrone natural edge bud vase with pink ivory inlay.

**Boyko Varney** "wowed" us with a pair of beautiful FlameWood and snakewood trimmed clocks. His clocks with adornment of over 75 stones proved again his skill on the ornamental lathe.

**Dan Moreno** shared a his recent turning, a Chakte Vega natural edge bowl. A beautiful choice of wood and a great a very nice job of turning.

**John Larson** brought in a project he had done for a client, a very large finial out of Yellow Pine. The pine was from reclaimed timbers.

My apologies go to anyone left out or for any incorrect information. Please keep bringing your turnings, and other wood related projects or turning information you may have to share.

## Thanks to Bill

**William Robertson** shared his very "mini" miniatures with us at the May meeting. He demonstrated on his Taig lathe, and shared some of the unique tools that he uses to create such tiny creations. It was a special treat to see such fine work.

And I think I speak for everyone when I say that it was a very unique and special presentation. Thank you again, Bill, for sharing your talent and your stories. We hope to get you back soon.
