JUNE PROGRAM

TURNING A SERPENTINE BOWL

Our demonstrator for the June 9th meeting will be Jerry Darter. Jerry says he isn't a very good turner. I asked him who told him that, and he didn't have an answer. Jerry Darter has presented some really good work at the club's Show and Tell over the years. Jerry will turn a serpentine bowl at the next club meeting.

He and his wife Kaye (a nursing supervisor) have two daughters. Christie is a science teacher at Hickman Mills and Pam just finished her PHD at Wichita and will be an assistant professor at Central Missouri State.

Jerry grew up in Burkburnett, Texas and moved to Kansas City in 1954. He retired as Director of Parks and Recreation for Kansas City, MO. in 2000. He is another of our turners who got interested in woodturning after watching a pen making demonstration at Paxton's in 1997.

THANKS TO CHIP SISKEY

Thanks to Chip for a good demo on air turning. I thought the daffodil from the pre-cut shape was impressive. People that know how to make it look easy. Now you know how, so let's see some air turnings. If you weren't there you missed a good one. Everyone enjoyed seeing the turned daffodil.
