JULY PROGRAM HARVESTING WOOD

Our demonstrator for the July 14th meeting will be **Dan Moreno**, club member and owner of Turn About Wood. Dan will be demonstrating how to cut your rough logs into usable pierces. Dan has been working wood since high school. He is one of the founders of the Northland Woodturners. Dan has been teaching woodturning professionally for over 8 years, and many of the Kansas City club members got their start turning with Dan.

This will be an informative demo don't miss it.

Dan will be bringing in his band saw and the electric chain saw to the club meeting. Dan has lived north of the river in Kansas City, Mo. all of his life. His interest in wood started at a young age when he had access to hundreds of acres of woods around his home and after spending countless hours in those woods. His turning started after the encouragement of a shop teacher to develop his talent for using the woodlathe.

He and his wife Sandy, the club secretary, share in their enjoyment of woodturning. Dan will be a featured artist and exhibiting his work at the Images Gallery in Kansas City this fall.

THANKS TO JERRY DARTER

for last month's demonstration. What a demonstration by the Tomato Man. Please believe me when I tell you I did not call Jerry Darter at midnight (he was in bed though). Jerry's Serpentine Bowl and description of how too as he went through the process was very educational. Many thanks to Jerry.
