August Turning Challenge Winners Challenge: Turn Three or More Pieces, Then Assemble Into One

1st Place – Jerry McMaster

2nd Place – Dick Woodhouse

August Meeting Demonstration**KC Woodturners Round Robin**

Most of our lathes were in use Monday evening with different items being turned. Anybody that wanted to had a chance to try their hand at turning, or watch the “experts” at work. I was too busy showing my home-made hollowing tool to see what was going on everywhere: Jerry Darter turned an ash bowl, Don Gruis turned an egg, Don Grimes turned a hollow form, Dean Thomas turned a trivet, and Dick Woodhouse turned a candlestick. I know I’m leaving out a couple of “experts” so I apologize for my lack of attention. A good time was had by all.

Upcoming September Meeting Demonstration

Three 20-Minute Woodturning Demo Vignettes

Instead of a 1-hour single-topic demonstration, we decided to do three 20-minute short demonstrations. We're still working on the fine details of our demo for this meeting but we're sure you will enjoy them.

September Turning Challenge

This turning challenge is a lidded container. Both the container and lid must be turned, otherwise the sky is the limit. The lid can be tight-fitting, loose-fitting, screwed-on, or whatever you like.

**KCWT Annual Auction
October 8th**

The annual auction is always great fun and it helps our club sponsor nationally-known woodturning demonstrators like Stuart Batty.

Dick Woodhouse, Bud Schenke, and the auction committee have been doing a terrific job mailing letters to suppliers asking for donations. Some donations have already arrived and can be viewed along the west wall of the clubhouse.

This is also a wonderful opportunity for members to donate unused items to the auction, where they will be graciously accepted. Bring your items to the September or October KCWT meeting or call Dick Woodhouse at 913-851-5917.

Please support the following companies that have given their support to the Kansas City Woodturners Club:

Woodcraft Supply
8645 Bluejacket Rd.
