Learn to turn with Joe Ruminski

Mark your calendars for August 8th - 10th, the Kansas City Woodturners present Joe Ruminski.

Joe will be demonstrating and teaching turning of the "false" hollow form, onion vase, multi center wall hangings and then adding color, burning and texturing. The hands on classes will allow the beginner to be successful while challenging the advanced turner to go further with smaller and crisper details. Students should be able to complete two projects each day and class members will determine which projects will be taught.

Saturday August 8th, Joe will be demonstrating from 9am to 4pm the cost is \$25.00 which includes lunch. Sunday August 9th and Monday August 10th are hands on classes from 9am to 4pm . The cost for each of these days is \$90.00, which includes your materials, but lunch is on your own.

For more information or to register for classes contact Gerald McMaster.

Club Challenges

There are still some challenges for the rest of the year. Put on your creative hats and start turning.

July— Bottle Stoppers
September - Lidded

August - Table Accessories
November - Ornament

KCWT & KCWG Joint Open House June 13th

The Woodturners and Woodworkers sponsored a joint open house on June 13th. The open house was from 10:00 a.m. to 4:00p.m. The event was well attended and many of the visitors were impressed with the facilities and the people sharing their skills at the open house.

Making Them Round

Steve Trauthwein, President of the Independence Woodturners demonstrated for the June meeting. Steve explained to us the math of turning a sphere. This process helps with giving you guides to use while developing the eye to freehand turn spheres. For those like me, who need extra help he had some links that helped with the explanation of using math to create a sphere. Here they are:
